

Business Operations & Corporate Services Policy

Purpose

This fictional document covers expenses, reimbursements, invoices, payroll schedules, corporate cards and administrative compliance.

Expense Reimbursement

Employees should submit business expenses through the expense portal within 30 days of the transaction. Receipts are required unless a documented exception applies. Manager approval is required before finance processing.

Corporate Cards

Corporate cards are for approved business expenses only. Personal purchases are not permitted. Lost cards must be reported immediately to Finance and the card issuer.

Invoices and Payments

Vendor invoices should contain the purchase order or approved contract reference when applicable. Standard invoice processing is targeted for 10 business days after a complete and approved invoice is received.

Payroll and Tax Documents

Payroll is processed on the last working day of each month in this fictional policy. Tax documents are made available through the employee portal after the annual payroll reconciliation process.

Compliance Templates

Standard NDA and procurement templates are maintained by the Corporate Services team. Employees should use the approved versions rather than creating modified legal terms themselves.
